

Juan Ramirez

Frontend Developer

About me

Front End Developer with 1 year of experience building projects in an environment of development based on HTML, CSS and JavaScript, offering an immersive and attractive UX through efficient development of web sites and applications. I really want to learn new technologies and join a collaborative team. In my free time I enjoy creating posts about the topics I'm learning.

Experience

Freelance Web Developer

Freelance

Ago 20 – Current

- Work with clients to design and develop the overall look and feel of a website.
- Create basic website designs and user interfaces with HTML and CSS.
- Write well-designed, testable, and efficient code using web development best practices
- Incorporating applications, graphics, audio and video clips into client websites
- Ensuring websites are accessible across many platforms, including laptops and phones. Using the mobile first methodology
- Performed regular site maintenance including updates, backups, and security checks

Junior Front End Developer

Exodus Web Design

Sep 21 – Mar 22

- Collaborated with the team to design new features for our clients.
- Maintained the websites for clients using CSS, javascript and React
- Implemented responsive design techniques so the site could be viewed on any device without issue
- Participate in meetings, code reviews, follow the SCRUM methodology and follow up on trello tasks.
- Used source control tools (GitHub) appropriately depending on the task at hand
- Routinely testing websites for ease of use, speed and other quality factors

Content creator

Frowcode

Sep 21 – Current

- Make a post explaining programming topics
